BIOGRAPHY

S

teve Perry is one of the most sought after top speaker in education and advocacy in America.

Widely respected by grassroots community members and internationally renowned leaders, Dr. Steve Perry's charismatic and compelling voice is an inspiration. He is the educator upon whom Oprah Winfrey, Sean "P-Diddy" Combs, Bishop T. D. Jakes, and Steve Harvey call to offer insight to parents and children. A diverse array of politicians and groups, from the National Urban League to ALEC, have reached out to Dr. Perry to better understand what matters to parents.

Within the last 24 months, Dr. Perry has opened his fifth Capital Preparatory Schools in CT & NY, as well as assisted Steve Harvey in penning his new book, "Jump", has spoken in over seventy-nine communities and completed his sixth book, "Transparenting". Most recently, premiering his new daytime talk show "Breakthrough with Dr. Steve Perry". As no stranger to television — Dr. Perry hosted another TVONE drama hit show "Save My Son," a reality show that featured parents who wanted to keep their sons from becoming another disheartening statistic.

His impact is profound and varied and displays no signs of slowing down. The word often used to describe Dr. Perry is "passionate". His authenticity is a welcomed addition to any discussion rooted in improving the lives of youths and the community. His skills are hard-fought and have been bestowed by his difficult childhood all the way through his Ivy League school graduation. There is a richness in his concepts that foster an intriguing point of view on the modern American family.

Dr. Perry's unique and powerful voice is respected and has been featured on multiple networks: MSNBC, Fox, CNN, Al Jazeera, TV One, BET, and NBC as well as the Oprah Winfrey Network (OWN). His courage and piercing insights provide a fascinating perspective that is seldom found in public discourse. Dr. Perry fearlessly speaks from the heart, which births unpredictability. He's the voice of a generation, a people's champion who has been fighting for disadvantaged children and families for thirty years. Passionate and surprisingly funny, Dr. Steve Perry is a man who is worthy of a listen.

Youth Advocate. Motivational Activist. Leader

Professional development

- Personal encouragement and motivation for continual professional growth as an individual educator in the classroom and team player of a school system.
- Best student retention rate methods/tips to utilize within the classroom.
